

V Lift PRO

P D O T H R E A D S

Designed for professionals.

Collagen activator Smart threads

M O N O

Great improvement of skin condition

Boost neocollagen by fibroblasts

No downtime

Soft side effects

Lasting around 12 months

PDO is an absorbable suture by hydrolysis

Natural action mechanism, natural results

Key: insertion like a mesh, as natural collagen fibres

NEEDLE (mm)	
GAUGE	LENGTH
25G	90
27G	60
29G	38
29G	50
30G	25

SUTURE (mm)	
USP	LENGTH
4-0	160
5-0	100
6-0	60
6-0	80
6-0	30

Bidirectional cogs
Immediate lifting

P R E M I U M

3D spiculated, 360° in bidirectional position

Needle guide

Barbs fixed in hypodermis

Immediate effect

Key: insertion by vectors

Soft Needle

***Better experience for patient
and professional***

NEEDLE (mm)	
GAUGE	LENGTH
19G	90
21G	70
21G	90
23G	70
23G	90

SUTURE (mm)	
USP	LENGTH
1-0	160
2-0	140
2-0	160
4-0	140
4-0	160

More tension,
Less trauma

CANNULA 3D

3D, 360° in bidirectional position
Guide by cannula
Less trauma
Indicate in non-surgical facelift by "one point"
Fixed in hypodermis
Immediate effect
Key: one point, vectors

It is largely effective in facial lifting and wrinkle removal through self-stimulation of cell. There is no side effect or worries about removal operation.

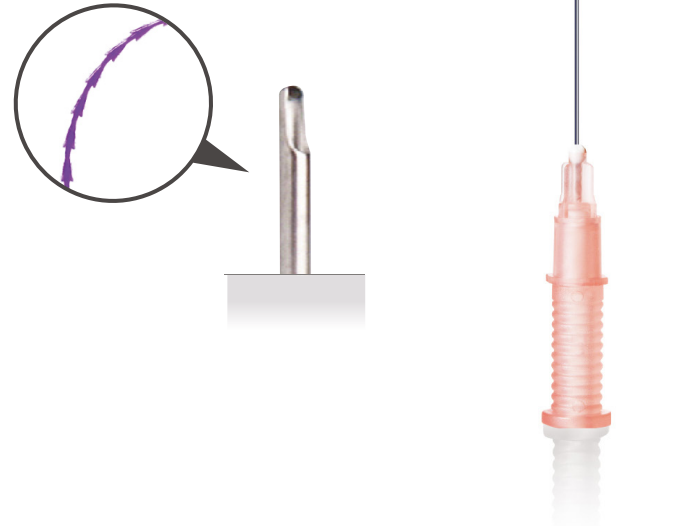

NEEDLE (mm)	
GAUGE	LENGTH
19G	90
21G	70
21G	90
23G	70
23G	90

SUTURE (mm)	
USP	LENGTH
1-0	160
2-0	140
2-0	160
4-0	140
4-0	160

Cones cogs Cannula

C O N E S

Innovation
New concept, evolution
Bidirectional cones
Manufactured in the same mold
Compact, resistant
Designed for a major sagging
Key: vectors and training

NEEDLE (mm)	
GAUGE	LENGTH
18G	100

SUTURE (mm)	
USP	LENGTH
1-0	185

Nose lifting

Volume and contour

N O S E

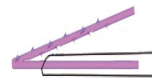

Non-invasive nose surgery

For balanced and natural nose surgery without extensive incisions.

Make desired nose shape with non-invasive procedure. It is a specialized product for nose surgery, inserting into the septum, dorsum, tip and ala of nose.

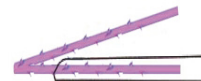

N O S E I

NEEDLE (mm)	
GAUGE	LENGTH
21G	60

SUTURE (mm)	
USP	LENGTH
1-0	80

N O S E II

NEEDLE (mm)	
GAUGE	LENGTH
19G	38

SUTURE (mm)	
USP	LENGTH
2-0	50

Collagenesis

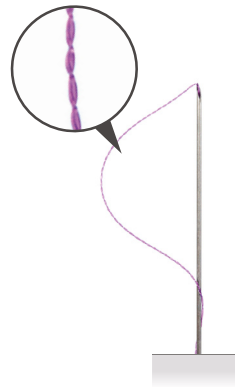

Increased tension

S C R E W

Screw thread, special for vertical cheek wrinkles
 Stronger than monothreads
 Accelerates stronger simulation into SMAS layer
 Increases collagenesis

T W I N

Designed as twisted pairs of mono thread
 Increases tension effect
 Accelerates stronger simulation into SMAS layer

● SINGLE SCREW ● SCREW DOUBLE ● TWIN

NEEDLE (mm)		SUTURE (mm)	
GAUGE	LENGTH	USP	LENGTH
● 26G	60	5-0	100
● 25G	60	6-0	100
● 25G	50	6-0	80

PRO series
